

Food in all its forms, from its sale to its cooking and presentation, is certainly providing Special EFX with a recipe for success as it celebrates the creation of the spectacular The Grocer Magazine Gold Awards and the prestigious S. Pellegrino World's 50 Best Restaurant awards.

The Grocer Magazine Gold Awards were certainly dressed to impress, with their million dollar good looks in glistening gold-plated solid aluminium reflecting their importance as the most hotly contested awards in the food and drink retailing industry.

A select list of ingredients and production techniques including acrylic encapsulation, printing, block colour and laser engraved matt finish metal were combined to create the very tasty seventh annual, The S. Pellegrino World's 50 Best Restaurant awards, presented to the planet's 50 best places to eat as chosen by international chefs and critics.
